In the summer, when the winter sleds have been put away, the Athabaska dogs offer you another great way to enjoy their company: dog-trekking, i.e. taking a walk, immersed in the green forests of Trentino, attached to the dogs by a harness tied at the waist, the dog patiently helping us up the climbs and waiting for us on the descents.

Dog trekking is an activity for everyone, adults and children alike (children will be helped by their parents or by the instructor), groups, schools or families.

The duration can vary from a couple of hours to a full day, for which there will be a picnic lunch in the middle of nature.
