Country, the tour for everybody (or almost!)

Dolomiti di Brenta Bike country! Cycle paths on the valley floor, safe stretches of dirt road, country roads and some uphill to stimulate the appetite are the characteristics of the country route.

In blissful tranquillity, along cycle paths on the valley floor as well as country roads, meadows, cultivated fields, apple trees in full blossom, vineyards. Crossing villages and old ravines, glimpses and panoramas. When compared with its big brother Expert, the Country route is certainly no less fascinating, as attractive and maintains all the characteristic of a proper MTB tour.

The family route is suitable for both bike enthusiasts: cycle paths, safe dirt tracks, modest elevation gains (nevertheless always in the mountains, up to an altitude of 1800m) open space, lush green valleys, rural villages: 136 Km of pure MTB and a total elevation gain of 4,600 m.

A wide range of integrated mobility services are available (bike-taxi, bike-shuttle, bike-bus, bike-train) that will allow you to better organise your trip, and help you to overcome the hardest stretches, transport your bags or simply guarantee a quick and trustworthy service at your disposal for any eventuality.

Fact and figures of Dolomiti di Brenta bike "country"

total distance	Elevation gains	Dirt/Gravel track	Single track (Carry bike)	Cycle paths	Paved roads
136 km	4600 m	51 km	-	32 km	53 km
