

FAQs

What is Dolomiti di Brenta Bike?

DDB is a mountain bike tour circuit divided into stages, which can be completed over a number of days. It unwinds around the rocky Dolomiti di Brenta mountain group, in the eastern part of Trentino.

Where is it?

The Dolomiti di Brenta territory is part of the Adamello Brenta Natural Park and covers six valleys and famous tourist destinations such as Madonna di Campiglio, Terme di Comano, Andalo and Paganella, Val di Non, Val di Sole. The Brenta Dolomites are well known for their charm, for the romantic colours of its limestone and for its peaks: Grostè, Spinale, Crozzon di Brenta, Campanil Basso, Val d'Ambiez, Monte Peller, are just some of the names of the worldwide famous places known to mountaineers, climbers and trekkers as well as the many bikers who take on the challenge of the Transalp Tour.

Why? The appeal of Dolomiti di Brenta Bike!

The Adamello Brenta Natural Park is famous worldwide for being the first to have reintroduced the brown bear in the territory, more specifically right in the Brenta area. The Dolomiti di Brenta Bike logo is inspired by the important and historic presence of the bear, testimony to the unspoiled woodland area and of man's attention in the management and preservation of a natural treasure.

Today Dolomiti di Brenta Bike offers you a new experience, a new face of this unique and suggestive territory. It was born out of the result of important and serious preparation of the area and the hospitality for those who will take the tour.

Who is it aimed at?

The Dolomiti di Brenta Bike is aimed at two different targets:

- the sporty and well trained biker who loves challenging tours with big elevation gains and no fear of tiring, which we have for clarity and simplicity called the Dolomiti di Brenta Bike Expert.
- the more easy going biker who wants to pedal in safety but not withstanding a few difficult sections, just to remind you that we are in the Dolomiti di Brenta area... pure mountains! The tour is called Dolomiti di Brenta Bike Country, suitable for less trained bikers even with the whole family in tow!

When?

From May until October, straight after the snow has melted and the lush green pastures have appeared.
