

## Air, land, water... and Bears!

Awaiting you along the Dolomiti di Brenta Bike are, Molveno lake with its green beaches, the forest of Pradel and the village of Andalo's street patterns stretching to Spormaggiore ...the kingdom of bears!

Cycling along the shores of the lake is certainly one of the biggest emotions of Dolomiti di Brenta Bike: enchanted places, such as the lake at sunset and the green beaches, which during the day are alive with entertainment and activities. Then, continuing on through forests and parks in the direction of Andalo you will come across an open farm at Malga Tovre where families and children can come into contact with animals and farm life. The farm caters for bikers offering safe storage for your bikes. The Forest Park, in the locality of Pradel, has an adventure park fitted with suspended bridges, acrobatic walkways and swinging creepers.

You will then pass Selvapiana until reaching Spormaggiore where there is an area dedicated to the brown bear. This area is approximately 700 sqm and a suitable environment has been created for the various brown bears in captivity there. Here you will also find the Casa del Parco Orso, a building completely dedicated to the brown bear and the initiatives of the Natural Park, which are aimed to protect this animal.
