The Giudicarie area is crossed by three valleys: the Rendena valley to the north, the Val del Chiese valley to the south and the Terme di Comano valley to the east. Its valley floor is lush green and here both the family and expert routes unwind. The family route passes next to the Sarca river on a cycle path, while that of the expert is on a mountain road at 1000m a.s.l.

In the Western part of the area the Giudicarie Centrali district is located. A gorgeous and picturesque bowl named "Busa", with the village of Tione di Trento at its centre, at the altitude of 600 m a.s.l. it is located at the foot of the Adamello Brenta Natural Park. In this area nature and civilization maintain a perfect balance that allows the inhabitants to benefit from both the unspoiled environment and the comforts offered by technological progress at the same time.

This district is easily accessible and neighbours worldwide famous tourism destinations such as Madonna di Campiglio (30 km away) and Lake Garda (40 km away). For this reason Giudicarie Centrali is an ideal place for people who love to pass the time, without overspending, in a quiet, relaxing and hospitable environment.

There are numerous possible cycling routes in this district: fresh water, clean air, plenty of mushrooms and wild animals are the treasures offered by our mountains. Moreover, culture, arts and traditions also play a big

role in drawing the tourists.
