

## Territory

Comano is a beautiful little known corner of Trentino. Hidden behind Garda Lake it is located between the Brenta massif and the Nembia and Molveno lakes. Welcoming those looking for peace, tranquillity and stunning landscapes that have been unspoiled by man and have not been hit by mass tourism.

The valley is formed by three sun kissed plateaus, Banale, Bleggio and Lomaso, and presents itself as a lush green treasure chest where one can rediscover the pleasure of a holiday dedicated to nature, sport, silence, health, well being and tradition. Magically breathtaking views open out over the countryside and the green woodland at the feet of the Brenta massif.

The district accounts for dozens of ancient rural villages - including Rango, listed among the "Most beautiful Villages of Italy" - which are located only a few kilometres away from the Dolomiti Brenta Bike route. The typical architecture of stone and wood and the genuine hospitality of the people recall the traditions of yore.
